

II Encontro CEAFFEL

15-16 September 2016, FCUL, Building C6, Room 6.2.38

15 September

- 14h00** **Marco Mackaay** (Universidade do Algarve)
2-Representations of Soergel bimodules in finite Coxeter type
- 14h55** **Luís Castro** (Universidade de Aveiro)
Quadratic-phase Fourier transform
- 15h50** Coffee break
- 16h15** **Filipe Gomes** (Universidade de Lisboa, FCUL)
Supercharacters of unitriangular groups and ramification graphs
- 16h45** **Frank-Olme Speck** (Universidade de Lisboa, IST)
On the symmetrization of general Wiener-Hopf operators

16 September

- 9h30** **Pasquale Petruccio** (Università degli Studi della Basilicata)
Kostka-Foulkes polynomials, raising operators and chip-firing game
- 10h25** **Catarina Carvalho** (Universidade de Lisboa, IST)
Index formula for convolution type operators with piecewise continuous, slowly oscillating coefficients
- 10h55** Coffee break
- 11h20** **José Agapito Ruiz** (Universidade de Lisboa, FCUL)
 γ -numbers
- 11h50** **Alexei Karlovich** (Universidade Nova de Lisboa, FCT)
Semi-Fredholmness of weighted singular integral operators with shifts and slowly oscillating data
- 12h20** Lunch
- 14h30** Round table (reserved for CEAFFEL members)

Organizing Committee

Raquel Coelho Simões
